

Highland View Park

New and Improved!!!

Located just east of N. Oak on 85th Terrace, Highland View Park serves as place of relaxation and entertainment for all residents of the Highland View neighborhood, as well as for our firends and family. Unfortunately, in its 20+ years of existence, this 13+ acre park has never reached its full potential. Because of this, steps have been taken to involve the city of Kansas City in an effort to design and build *a brand new Highland View Park!*

:: The Opportunity ::

Through the use of **available** city funds, the Highland View Neighborhood has the opportunity to make dramatic improvements to our neighborhood park. There will be **NO COST** to neighborhood residents, and there will be **no additional taxes** in the funding of this effort. If we act now, there is a potential that this project could be complete *in the next 12 months!*

Potential Improvements:

- Updated / Modern Playground Equipment
 - Age-Appropriate
 - Climbing Equipment
 - Ramps
 - Slides
 - Ladders
 - And More!!!
- Improved Safety Features
 - Shock-Absorbing Surfacing
- Park Benches
- Walking Path

:: What You Can Do ::

To show your support for this project, and to have your thoughts and opinions heard, **please visit www.highlandviewpark.com or call Brian at 816.365.0325**. With your input, we can build a park that all residents of the Highland View Neighborhood can enjoy!
